Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

In a time like this with the economy in a downfall, we don't need the price of everything going up. I am 27 yrs old and I have 2 children I am currently looking for employment, but things are not going so good, there is just nothing out there. If the price of wireless goes up I will not be able to afford to keep my phone, which I rely on for the safety of my children and myself. Please don't do this!!!!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
